

The background of the slide features a dark, textured surface, possibly a wall or floor, with a prominent vertical crease or joint. A large, dark red rectangular area is overlaid on the left side, containing the company name. The name 'CARBONTECH' is in a bold, white, sans-serif font, and 'REVOSTRAP' is in a larger, bold, white, sans-serif font below it. A small logo consisting of three white hexagons is positioned to the right of 'CARBONTECH'. The overall design is modern and industrial, with geometric shapes like hexagons and lines in white and red.

CARBONTECH

REVOSTRAP

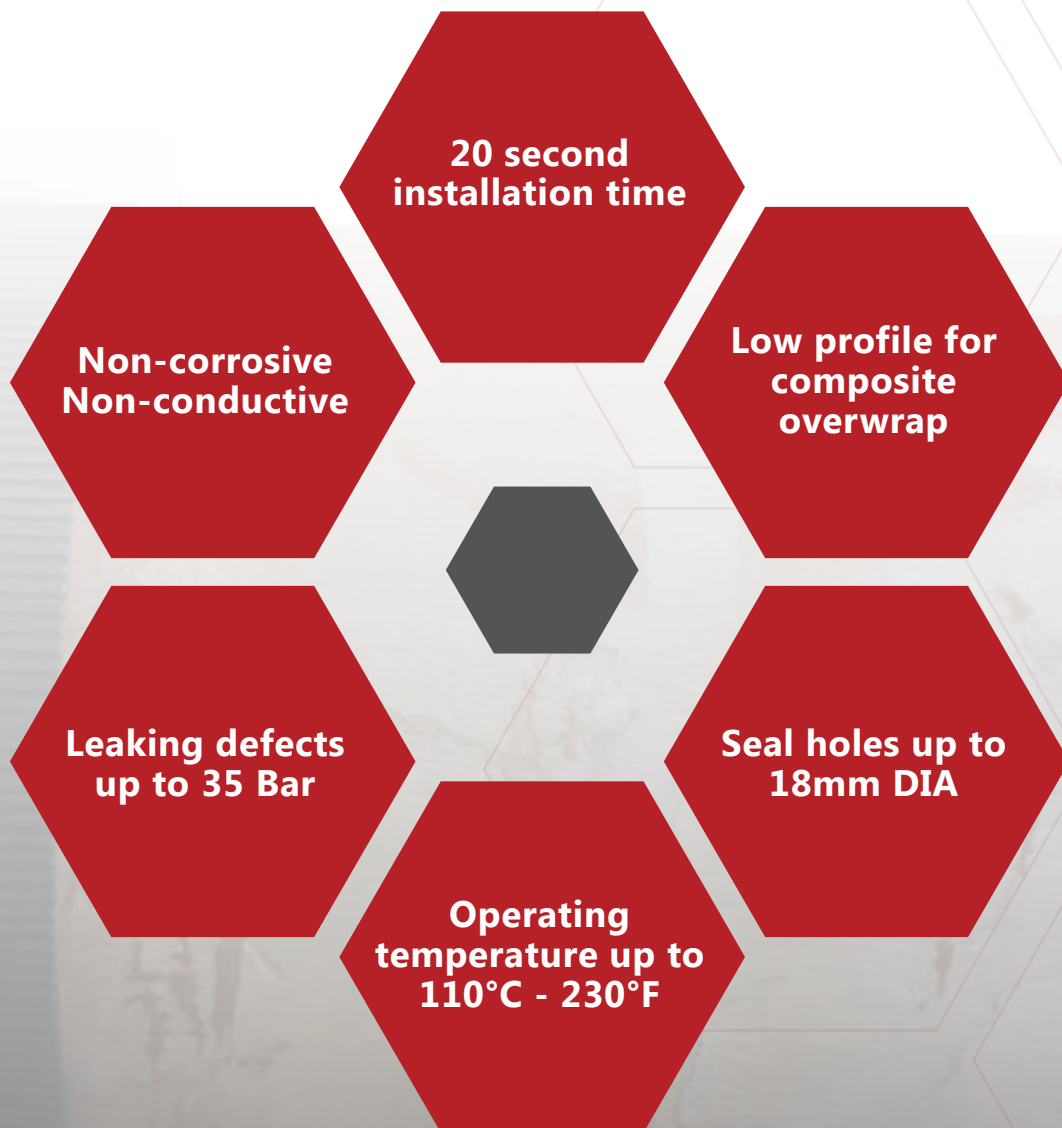

Our comprehensive global product lines offer suitable solutions on new construction and maintenance projects for tough and demanding environments.

Our reputable products are tested, validated, field proven and backed by a team of global professionals.

THE 20 SECOND LEAK REPAIR SYSTEM

»» PRODUCT OVERVIEW

Carbontech introduces the Revostrap smart system to our arsenal to combat enduring site complications of leaking defects. It is not an industry secret that no composite repairs can be wrapped over active leaks. Revostrap smart systems is the answer! The Revostrap smart system is lightweight, cost effective and very simple to use, it is the strongest temporary leak sealing strapping device on the market.

RS32
REVOSTRAP

Glass Reinforced strapping system
Designed strap around leaking pipes to seal leaks up to 35Bar
Available in 32mm widths

RS-R32: 32mm
REVOSTRAP RATCHET

Designed to tension the Revostrip until the leak has stopped.
Available for the 32mm Revostrip systems

RS-SA30-32
REVOSTRAP 30 BUNG

Designed for Low pressure, deformed through wall corrosion or heavily pitted and corroded areas

RS-SA50-19
REVOSTRAP 50 BUNG

Designed for med to high pressure, slightly deformed through wall corrosion or pitted and corroded areas

RS-SA80-19
REVOSTRAP 80 BUNG

Designed for high pressure, through wall defects

» ADVANTAGES

- Fast, non-invasive repair - does not require hot work
- Repairs done live - no unplanned downtime
- Low profile for composite overwrap
- 20 Second leak repair system

» USES

- Pinholes
- Illegal Hot Taps
- Welds defects
- Weld anomalies

» INDUSTRIES

- Oil and gas facilities
- Petrochemical plants
- Chemical plants
- Transmission pipelines

THE CARBONTECH INNOVATIVE PRODUCT RANGE

Revowrap 80	High performance quad-axial glass and carbon fibre pipe wrap system used with ambient temperature 2-part epoxy system.
Revowrap 110	High performance carbon fibre pipe wrap system used with an high temperature 2-part epoxy system.
Revowrap 185	High performance carbon fibre pipe wrap system used with ultra high temperature 2-part epoxy system.
Revowrap 225	High performance carbon fibre pipe wrap system used with ultra high temperature 2-part epoxy system.
Revoshield 124	High performance fibre glass coating system used with super strength 2-part epoxy system.
Revowrap 175 Putty	Medium viscosity high compression strength putty used for the profiling of Revowrap® systems.
Revostrap	A 20 second leak repair system for low to medium pressure.
Revomat	An intelligent post cure system for high temperature wrap systems.
SPITZE Clamp	Temporary repair of live high-pressure leaks without having to shut down or isolate the system.

CARBONTECH

The place chemistry, engineering and global expertise are brought together to drive progressive innovation in advanced composite technologies for the emergency repair of critical assets **"There is nothing generic about us"** we don't just sell pipe wraps; we provide accurate engineering backing to deliver tailored solutions.

Sound and responsible engineering is the basis on which we build our company, products and services. It is the core to our success and it is the foundation on which we have engineered and manufactured our innovative and bespoke products.

We strive by a zero-failure philosophy and warrant our engineered composite solutions are tested, proven and validated. We vow to provide dependable, responsible and accurate information regarding the capabilities of our systems.
